

* If up/cross converter and down converter are used at same time, down converter will not use the de-interlacer

Output A
3G/HD or SD x 2
(x 1 if FIP or FOP fitted)
[Select 3G/HD or SD for this output]

NB. If Output A and Output B are both selected as 3G or HD, the outputs will be identical

Output B
3G/HD or SD x 2
[Select 3G/HD or SD for this output]

Optical output (optional)
[Same as Output B]
